Torrevieja was originally a small fishing village, and is today one of Europe's largest salt producers, Torrevieja has previously been called the 'salt city', but in recent years the city has also been named a 'sports city', this because of the large sports arenas that have been built in recent years. As a result of this fantastic investment, Torrevieja became one of four host cities during the 2021 Women's Handball World Championship. When you live in Torrevieja, you are within a short walking distance to white, elongated sandy beaches with the 'blue flag' stamp, as an indication of, among other things, high water quality. In the immediate area and often 'right outside' the door you will find a large selection of local shops, restaurants, cafes, shopping centres, green parks, the harbour and the promenade.
